

EPOXY LAMINATE BASKETBALL BACKBOARD 105X180 CM

■ Product description

Basketball backboard 105x180 cm, epoxy laminate with a steel galvanized or painted frame. The frame is made of steel profiles 30x30 mm. The Fixing of the epoxy laminate to the frame is by M10 screws (specially welded sleeves for the screws are inside of the frame). Special gaskets are used to amortize and mute the vibration.

■ Additional information

Epoxy laminate with thickness of 20 mm
