

EPOXY LAMINATE BASKETBALL BACKBOARD 90X120 CM

■ Product description

Basketball backboard 90x120 cm, epoxy laminate with a steel galvanized or painted frame. The frame is made of steel profiles 30x30 mm. The Fixing of the epoxy laminate to the frame is by M10 screws (specially welded sleeves for the screws are inside of the frame). Special gaskets are used to amortize and mute the vibration.

■ Additional information

Epoxy laminate thickness 20 mm
