

## SOCKET TO BALL CATCHER POST

### ■ Product description

Socket to the ball catcher post. Made of 90x90x3 mm profile, hot-dip galvanized. It comes in a version with a length of 500 mm or 700 mm. In the upper part there are welded M12 nuts for the screw-tightening and adjusting the ball-catcher post, as well as for the steel cable holder for fixing the nets. In the lower part, welded steel bar  $\phi$  12 mm or M12 screw to block the ball catcher post.
