

SEAT ABACUS GOLD

■ Product description

Abacus Gold is a durable chair with a higher standard. It can be equipped with a two-stage ventilation or air-conditioning system that distributes air through the perforated upholstery. Thanks to this, it can be used comfortably on hot days.

■ Additional information

This model has been designed for demanding audiences. The seat and backrest were placed in a weather-resistant leather cover and filled with a thick layer of foam. This solution ensures comfort and positively affects the aesthetics of space.
